

## EcoPlus Mag Drive Utility Pump™ Fitting Package

EcoPlus Mag Drive Utility Pumps™ come with the industry's most complete and versatile fittings designed to be used for either submersible or external Inline use. A quick reference chart is listed below for each of the EcoPlus Mag Drive Utility Pumps.™

- EcoPlus Mag Drive Utility Pump™ 250GPH - Fixed Flow Rate, Part number: 748450
- EcoPlus Mag Drive Utility Pump™ 350GPH - Fixed Flow Rate, Part number: 748455

| Part Description                             | Thread Diameter | Application                 |
|--|-----------------|-----------------------------|
| 1. Screen & Foam Sediment Pre-Filter         | 3/4" inner      | Submersible                 |
| 2. Bottom Draw Pump Adapter .78" from ground | 3/4" inner      | Submersible                 |
| 3. 3/8" Diameter Barbed Outflow Fitting      | 1/2" inner      | Submersible/External Inline |
| 4. 1/2" Diameter Barbed Outflow Fitting      | 1/2" inner      | Submersible/External Inline |
| 5. 3/4" Diameter Barbed Outflow Fitting      | 1/2" inner      | Submersible/External Inline |
| 6. 1/2" Diameter Barbed Inflow Fitting       | 3/4" inner      | External Inline             |
| 7. 3/4" Diameter Barbed Inflow Fitting       | 3/4" inner      | External Inline             |

- EcoPlus Mag Drive Utility Pump™ 500GPH - Fixed Flow Rate, Part number: 748460

| Part Description                              | Thread Diameter | Application                 |
|---|-----------------|-----------------------------|
| 1. Screen & Foam Sediment Pre-Filter          | 3/4" inner      | Submersible                 |
| 2. Bottom Draw Pump Adapter .78" from ground  | 3/4" inner      | Submersible                 |
| 3. 3/8" Diameter Barbed Outflow Fitting       | 1/2" inner      | Submersible/External Inline |
| 4. 1/2" Diameter Barbed Outflow Fitting       | 1/2" inner      | Submersible/External Inline |
| 5. 3/4" Diameter Barbed Outflow Fitting       | 1/2" inner      | Submersible/External Inline |
| 6. 1/2" Diameter Barbed Inflow Fitting        | 3/4" inner      | External Inline             |
| 7. 3/4" Diameter Barbed Inflow Fitting        | 3/4" inner      | External Inline             |
| 8. 3/4" Diameter Garden Hose Thread Connector | 1/2" inner      | Submersible/External Inline |

- EcoPlus Mag Drive Utility Pump™ 700GPH - Fixed Flow Rate, Part number: 748465
- EcoPlus Mag Drive Utility Pump™ 900GPH - Fixed Flow Rate, Part number: 748470

| Part Description                              | Thread Diameter | Application                 |
|---|-----------------|-----------------------------|
| 1. Screen & Foam Sediment Pre-Filter          | 1" inner        | Submersible                 |
| 2. Bottom Draw Pump Adapter .69" from ground  | 1" inner        | Submersible                 |
| 3. 1/2" Diameter Barbed Outflow Fitting       | 3/4" inner      | Submersible/External Inline |
| 4. 3/4" Diameter Barbed Outflow Fitting       | 3/4" inner      | Submersible/External Inline |
| 5. 1" Diameter Barbed Outflow Fitting         | 3/4" inner      | Submersible/External Inline |
| 6. 3/4" Diameter Barbed Inflow Fitting        | 1" inner        | External Inline             |
| 7. 1" Diameter Barbed Inflow Fitting          | 1" inner        | External Inline             |
| 8. 3/4" Diameter Garden Hose Thread Connector | 3/4" inner      | Submersible/External Inline |
