

Gavita UVR LED

Most LEDs focus on the visible light spectrum, between 400 nm to 700 nm wavelengths. The Gavita UVR LED allows you to leverage 315 nm to 400 nm UV-A wavelengths to help promote results during flowering, making it an ideal complement to your grow. Designed to fit seamlessly into the chassis of our bestselling LED, the Gavita Pro 1700e LED, or can be used as a standalone fixture. The Gavita UVR LED includes a daisy chain cable enabling you to easily connect multiple fixtures.

FEATURES

- This UV-A supplemental LED is designed to help boost UV output to plants
- Designed to fit directly into the chassis of the Gavita Pro 1700e, or can be used as a standalone fixture
- Daisy chain cable allows you to easily connect multiple fixtures
- FCC and UL 8800 compliant
- Dim: 42.2 in x 2.24 in x 1.5 in
- Weight: 3.9 lb
